

**COMING SOON!**

The 2nd sign-up for Dairy MPP  
(Margin Protection Program)  
July 1-Sept. 30

## How do you plan to manage 2016 Dairy Margin Risk?

If you are looking for alternatives and other producers to shed light on the subject, you are invited to attend:

# A Dairy, Corn and Soybean Markets Update

Dr. John VanSickle from the UF Food and Resource Department has been giving market forecasts to Florida Dairy Producers for several years and will do so again.

**Tuesday**  
**June 2, 2015**

**7:00pm**

**North Florida Holsteins**  
**Office Conference Room**  
**2740 West CR-232**  
**Bell, FL 32619**

### Directions:

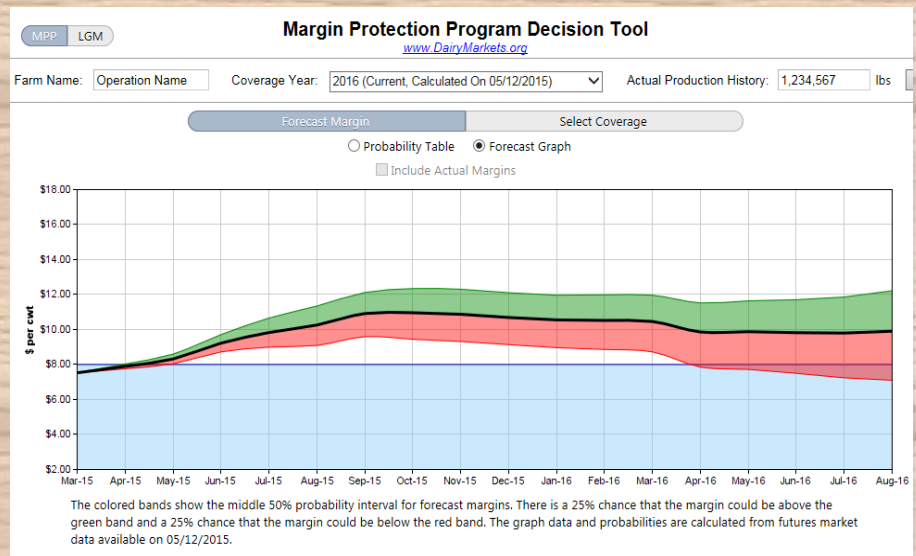

Entrance to North Florida Holsteins is East off Hwy. 129, 8 miles North of Trenton and 3 miles South of Bell.

**Plus**

## MPP versus Futures Market Options

Brent Czech, owner of New Heights Dairy, Rice MN, was a recent Florida Dairy Production Conference speaker on herd expansion.

During his presentation, he said he used the Future's Market to manage risk. Brent and his CIH consultant, Mark Rothschild, will join us via the internet on Skype to explain exactly how he fearlessly uses the Futures Market to insure profitability.

**Pizza will be served.**

If you are planning to attend, a call to Pam Burke at 386-362-2771 would be appreciated for planning purposes. Questions? Please contact Mary Sowerby at the same number or meso@ufl.edu
