Creeping Indigo in Horse Pastures

The deadly plant is making headlines in the equine community and leaving horse owners thirsty for information. This program was designed to teach participants how to properly identify the weed, symptoms associated with consumption, and how to effectively rid horse pastures of Creeping Indigo.

Registration is required, due to limited space.

Please call 863-674-4092 to register by October 8, 2015.

**\$10.00 registration fee.
